Palo Alto Networks Multiplatform Product Portfolio

Our portfolio of platforms consolidates best-in-class capabilities under a single, unified cybersecurity solution. Our platforms cover every defense vector with security tools that share intelligence and work together—from prevention to detection and response—to stop the most complex threats. Benefits of cybersecurity platforms:

Enhance risk posture	Simplify implementation	Reduce IT and cyber complexity	Reduce procurement costs and time

At Palo Alto Networks, we offer the industry's most advanced cybersecurity platforms and services. We are trusted by the world's most valuable enterprises and have been recognized in 11 Gartner Magic Quadrants and Forrester Waves.

Our offerings include:

Subcategory	Network Security Platform
Firewall	Network Security Platform
Intrustion Detection	
URL Filtering	
Sandbox Detection	
DNS Security	
IoT Security	
Data Loss Prevention	
Cloud Access Security Broker	
Posture and Health Management	
Remote access for Users	
SWG	
SD-WAN	

Palo Alto Networks Network Security Platform

Secure users, apps, and data anywhere— on-premises, in the cloud, or hybrid. Get complete Zero Trust network security to see and secure everything from your headquarters to branch offices and data centers, as well as your mobile workforce.

Subcategory	Cloud Security Platform
Cloud Security Posture Management	Prisma Cloud
Cloud Workload Protection	
Identity and Access Management	
Code Security	
Web Application/API Security	

Prisma Cloud—the leading platform for cloud security

We secure applications from code to cloud, enabling security and DevOps teams to collaborate effectively and accelerate secure cloud-native application development and deployment.

Subcategory	Modern SOC Platform
SIEM	Cortex XSIAM
Endpoint and EDR	
NTA/UEBA	
SOAR	
Attack Surface Management	

Cortex—the platform for the modern SOC

Palo Alto Networks offers the industry's most comprehensive product portfolio for security operations, empowering enterprises with best-in-class detection, investigation, automation, and response capabilities.

Subcategory	Threat Intelligence and Incident Response
Incident Response	Unit 42
Cloud Incident Response	
APT Investigation	
Security Program Design and Review	
Cyber Risk Assessments	
Compromise Assessment	
Attack Surface Assessment	
Managed Detection and Response	
Managed Threat Hunting	

Unit 42 Threat Intelligence and Incident Response

Unit 42 brings together world-renowned threat researchers with an elite team of incident responders and security consultants to create an intelligence-driven, response-ready organization passionate about helping customers more proactively manage cyber risk. Our consultants serve as your trusted advisors to assess and test your security controls against the right threats, transform your security strategy with a threat-informed approach, and respond to incidents in record time.

With our platform approach to securing the network, cloud, and security operations, organizations can be confident that they'll be able to protect people, applications, devices, and data simply and effectively, taking advantage of the best cybersecurity products on the market.
